## Objective

Motivated software developer graduate from Base Camp Coding Academy with 12 months experience in software development looking for a company where I can make an impact in people and customers everyday life. A part of the documentation, procurement and management leadership team during school.

## Skills - Tools (IDE, DB Studios), Languages, Frameworks, Soft-skills

Python, Java, JavaScript, HTML, CSS, Django, Spring, Agile Methodologies, PostgreSQL, VS Code, IntelliJ, Git, GitHub, Teamwork, Code Review, Critical Thinking, Spanish Bi-Lingual, Documentation

## Education

September 2022 - August 2023

### **Base Camp Coding Academy Graduate Institute (BCCA), Water Valley, MS -**

The Base Camp Coding Academy Graduate Institute is a non-profit 501(c)(3) organization that was founded in 2016 with the intention to create a pipeline for under-advantaged individuals in Mississippi to access careers in software development.

- Built a working Directory app to search for information using Python. I built the back-end and data entry modules for the app using VS Code.
- Built a prescription (Rx) tracker app with a team. I built the back-end using Python and worked with other teammates to coordinate their front-end work and testing. Code reviewed other teammates' work and helped to get their code working.
- Built a food-blog where I built the backend using Django, and its user authentication system. I also communicated with the front-end team to connect the user pages created with HTML and CSS to the back-end.
- Created banking application with Java using Object Oriented Programming concepts, and connected it to a PostgreSQL database using Java JDBC API to process SQL queries with IntelliJ.

## Memberships & Certifications

Leadership Team for BCCA - Documentation, Procurement, and Management Teams
